

T Training

The Way Forward

Course Overview

The five-day fork lift trainer course is conducted in accordance with RTITB.

Successful completion of the course will require candidates to pass an examination that covers basic operating skills, associated knowledge and practical instructional ability. The course concludes with an examination, which you must successfully complete in order to qualify as an RTITB Lift Truck Instructor.

Entry Requirements

Re-registration candidates must provide evidence of their current or previous RTITB registration. (NB. Re-registration candidates are not eligible to attend a re-registration course if their registration has expired for longer than (12) months.)

This is the ideal course for Instructors who require refresher and remedial training to raise their instructional techniques and to improve training and testing of operators to the recognised standard.

Candidates will need to be lift truck operators and are required to provide evidence of successfully completing the basic operating skills test on a counterbalance truck in the previous 12 months.

Duration

Our RTITB Lift Truck Instructor Course is designed to instruct up to a maximum of 6 delegates and will take 5 days to complete.

Course Content Includes;

- Health and safety
- Relevant regulations
- Approved Code of Practice (ACOP)
- The role of the Instructor and qualities
- Basic principles of instruction
- Skills and task analysis
- Lesson structure (practical and theory)

T Training

The Way Forward 

- Report writing
- Lift truck test

Qualification

Successful candidates are eligible to register on the [RTITB Register of Professional Instructors](#). This qualification is valid for 5 years and then the successful candidate will require a 5-day re-registration course.
