

Course Fact Sheet:

Basic Asbestos Awareness Training

Course Description:

Course Title: Basic Asbestos Awareness Training

Duration: 4 hours

Maximum Candidates per Session: 6

Course Overview:

The Basic Asbestos Awareness Training is designed to provide participants with essential knowledge and awareness regarding asbestos and its associated hazards. This course is suitable for individuals who may encounter asbestos-containing materials (ACMs) during their work or those responsible for overseeing such activities. Participants will gain a fundamental understanding of asbestos identification, potential risks, and safety measures.

Course Location Options:

We offer the flexibility to deliver this course at our training centre in Bromborough, Wirral, CH62 3NX. Alternatively, we have the flexibility to deliver the training at your location anywhere in the country, provided suitable facilities are available.

Key Topics Covered:

- Understanding asbestos and its characteristics
- Identification of asbestos-containing materials (ACMs)
- Health risks associated with asbestos exposure
- Safe handling and disposal of ACMs
- Regulatory requirements and legal obligations
- Case studies and real-world scenarios

Course Benefits:

- Gain awareness of asbestos and its potential hazards.
- Learn to identify asbestos-containing materials (ACMs).
- Understand the health risks associated with asbestos exposure.
- Explore safe handling and disposal practices for ACMs.
- Stay informed about regulatory requirements and legal obligations.

Certification:

Upon successful completion of the course, candidates will receive a Highfield (HABC) certificate, valid for 3 years. This certification demonstrates the candidate's competence as a workplace first aider.

Course Delivery:

Upon successful completion of the course, participants will receive a certificate of training. This certificate remains valid for three years, with a recommended renewal every 3 years based on industry best practice guidelines.

Contact Information:
