

Course Fact Sheet:

Emergency First Aid at Work Training

Course Description:

Course Title: 1-Day Emergency First Aid at Work Training

Duration: 1 day

Accrediting Body: Highfield (HABC)

Course Overview:

The 1-Day Emergency First Aid at Work Training is designed to equip participants with essential first aid skills to respond effectively to workplace emergencies. This course is suitable for individuals who want to become workplace first-aiders and meet the training requirements specified by organizations. Participants will learn vital life-saving techniques and gain the confidence to handle various medical situations.

Course Location Options:

We offer the flexibility to deliver this course at our training centre in Bromborough, Wirral, CH62 3NX. Alternatively, we have the flexibility to deliver the training at your location anywhere in the country, provided suitable facilities are available.

Key Topics Covered:

- Roles and responsibilities of a first aider
- Incident assessment and scene management
- Cardiopulmonary resuscitation (CPR)
- Automated External Defibrillator (AED) usage
- Assisting choking victims
- Dealing with bleeding and hypovolaemic shock
- Responding to unresponsive but breathing individuals
- First aid for seizures, heart attacks, strokes, and asthma attacks
- Handling severe allergic reactions and diabetic emergencies
- Casualty assessment, monitoring, and seeking help
- Electrical incidents, accident documentation, and hazardous substances (COSHH)
